The Best Possible Soccer Experience

Social distancing-related camp modifications

Soccer Camps 2021

Soccer Camps 2021

The past few months have been a hugely difficult time, with almost every person and business being negatively affected in some way. However, as we start to see some light at the end of the tunnel, we wanted to bring to your attention the new policies and procedures we plan on introducing to our soccer programs in 2021.

We are confident that our camps will run as planned but with certain changes made to ensure your children have *"The Best Possible (and Safest) Soccer Experience"*.

Safety Precautions

The additional safety precautions we are introducing will be in line with government recommendations. This will be taken on a city-by-city, county-by-county, state-by-state basis.

- *Our programs will have a ratio of 1 coach to 12 players, and will only expand groups whenever the government issues guidance that it is safe to do so.*
- *We have implemented strict sign-in procedures, with groups being separate at the beginning, during and the end of the day. Sign in locations and group allocations will be fully communicated to you prior to the first day of the program.*
- *Groups will be kept in their separate areas during the camp day, and there will be strict guidelines implemented to avoid the sharing of food, snacks and water, ensuring thorough washing of hands after every restroom visit and limiting child-to-child contact within groups.*
- *Coaches will wear a face mask throughout all UKIS programs unless city/county/state guidelines outline that it is safe to work without.*
- *Our priority this year is to provide your children with "The Best (and Safest) Possible Soccer Experience"*

The safety of players, parents and coaches is our number 1 priority and as such, if you have any questions at all regarding our new policies for safer camps this year, then please do not hesitate to contact us.

PLAYER SIGN-IN

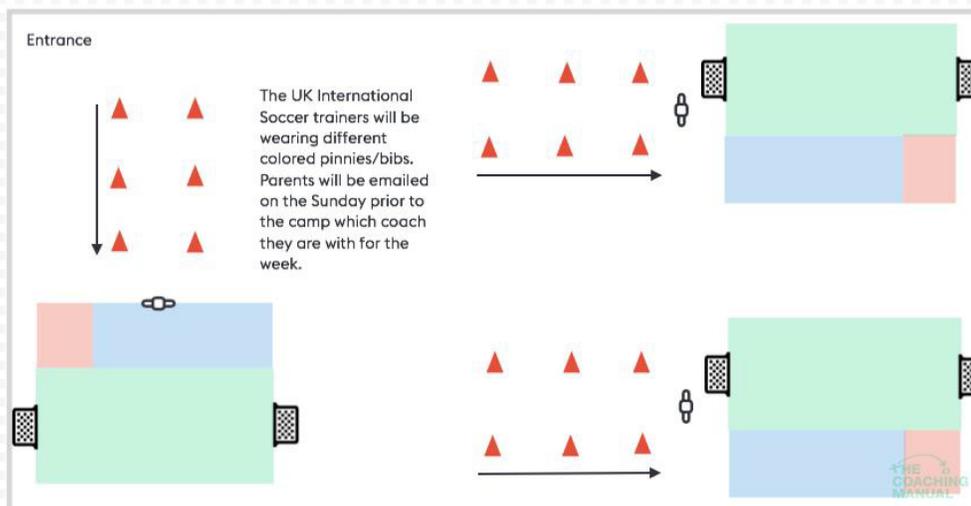

Overview of a camp sign-in for parents & players

In order to create a safe camp, parents need to be informed of our new procedures prior to arriving at camp.

Parents will receive an email, with pertinent information including what to bring to camp (i.e. hand sanitizer) and informing them exactly where to go when they get to the camp.

Coaches will be wearing different colored pinnies/bibs and parents will be instructed to which coach's area to approach

Example: "Your child will be with Coach Sam for the week of camp. Please go straight to coach Sam's area on Monday morning. Sam will be wearing the YELLOW pinnie."

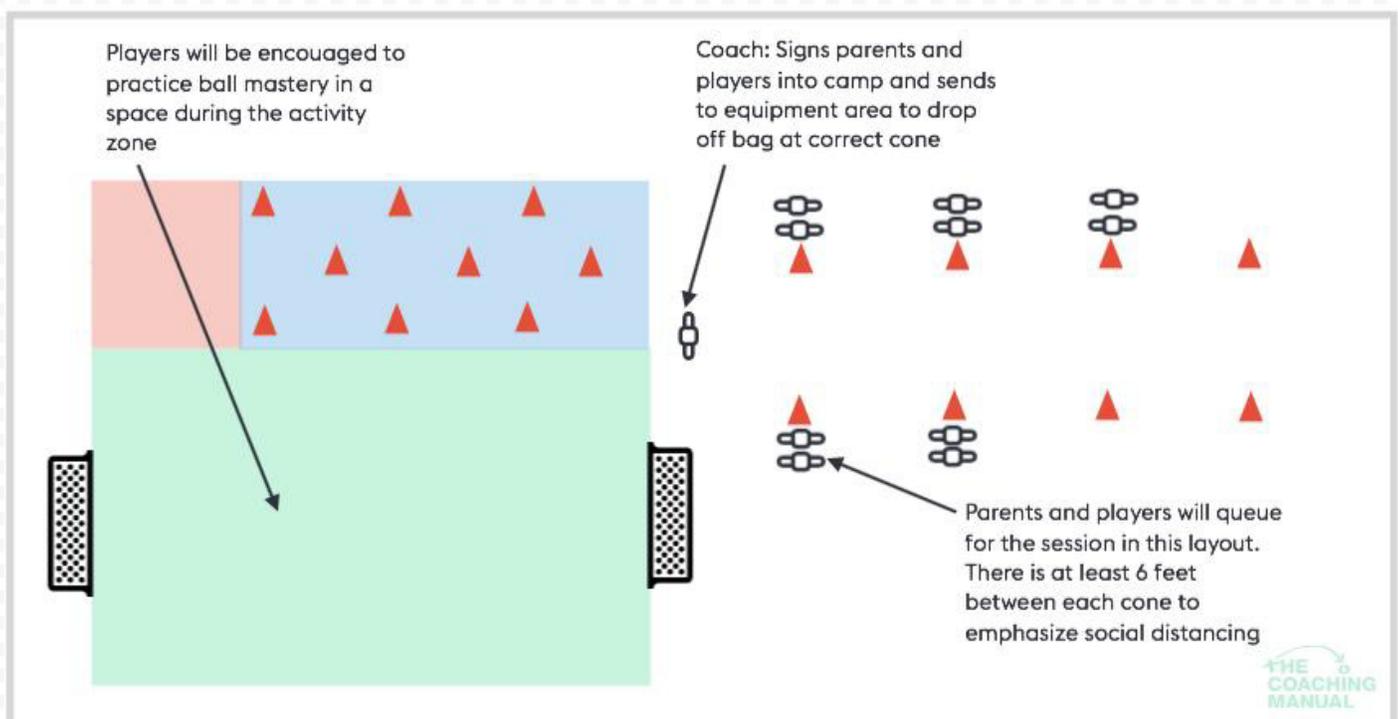

Parents and their children then line up on the orange cones (seen in the diagrams). This ensures that all parents and children will be the recommended six feet apart for the sign in process.

PLAYER SIGN-IN GROUPS

Daily overview of group sign-ins for parents and players

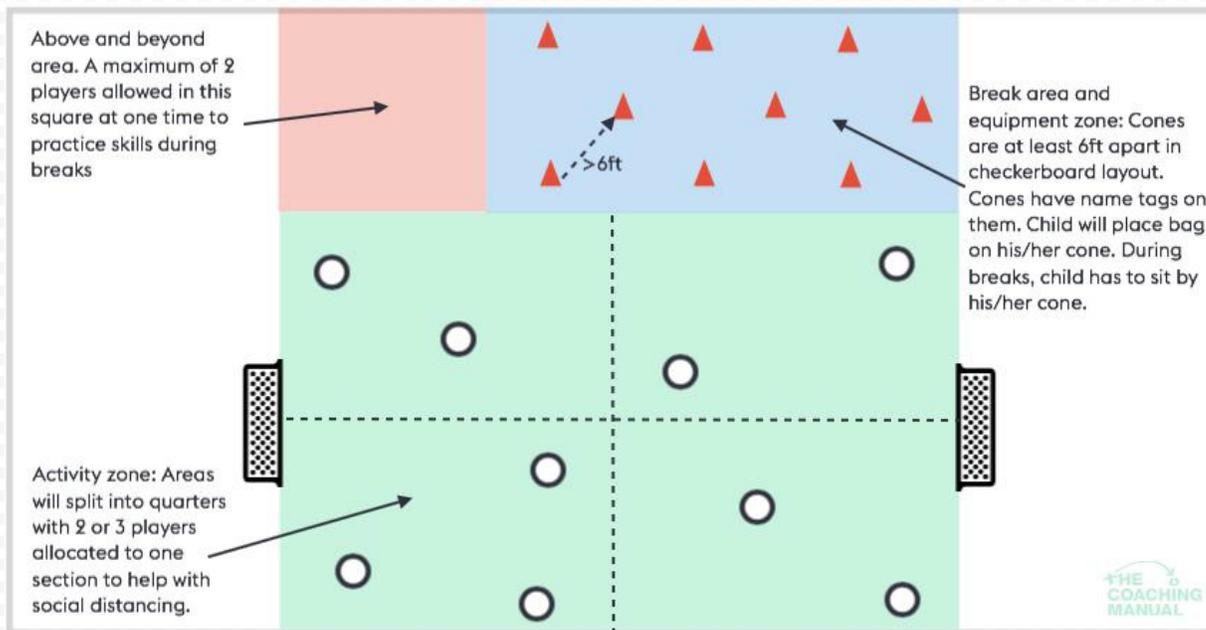

“ Providing parents and players with ‘The Best Possible (& Safest) Soccer Experience’ this year. ”

- Every session of the program/camp will require this process.
- Parents and their child will have to wait on one of the orange cones (shown on the right of the diagram) until the coach has signed the player in.
- All Players will have their temperature checked as they sign in. If a temperature of 100.4 or higher is recorded, the player will not be able to participate in the session.
- Players can practice some skills in the activity zone, but for the start of the session, the coach will call everyone back to their cones to begin the activities.
- Players will be assigned a cone by which to place their belongings. These cones will be at least 6 feet apart and will be in a ‘checkerboard layout’ to enhance social distancing.

FORMATTED COACHING GRID

How our coaches will set-up the players training grid

Coaching Grid

Our coaches have a number of methods of how to maintain separation during activities. Here is one example of how we are managing social distancing within our sessions:

The red zone in the top-left of the image is the 'Above and Beyond area'. A maximum of 2 players can be in the zone at one time. Players can practice some of the skills they have learned in this zone and we have restricted the number of players permitted in this zone to again, enhance social distancing.

The blue zone in the top-right is the equipment area that is also used for breaks and sign outs. Each orange cone will be labelled with a player's name so when players go into this zone, they know exactly where to go. This modification will ensure that players are at least 6 feet apart when in this area.

The green zone is the 'activity zone'. This is where the soccer takes place. As visible on the diagram, the activity zone is split into quarters. We will have a maximum of three players in each 'mini-zone'. This maximizes the social distancing element, with our curriculum being based around individual skills.

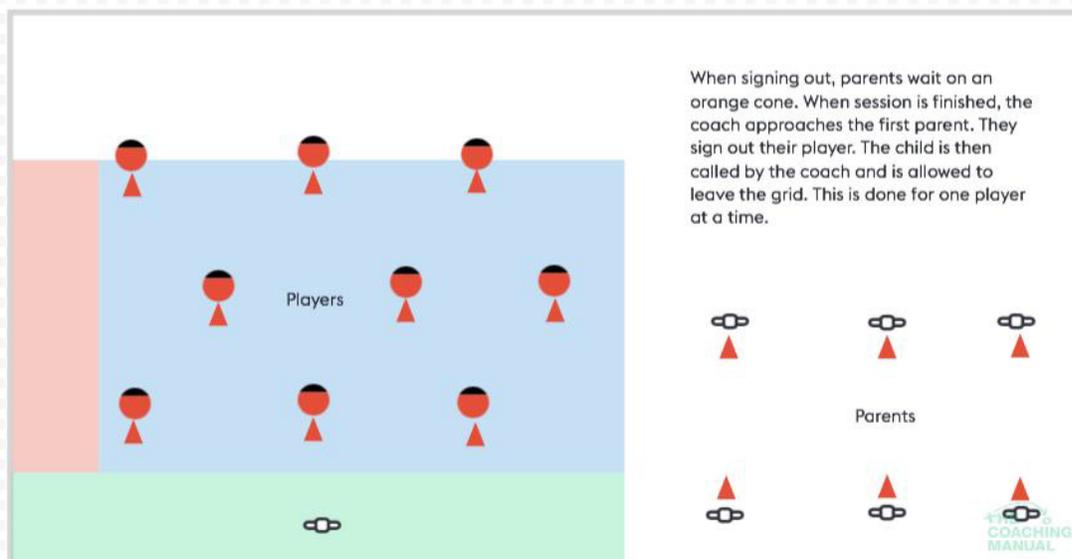

BREAKS & SIGNING OUT

Overview of how breaks, and the signing out process will be organized.

As mentioned, when the players take a drink or snack break, they will sit by their assigned cone. These cones will be at least 6 feet apart. We will emphasize to players and parents that there will be no sharing of food or drink, which was something we enforced even before the COVID-19 outbreak.

Players will return to this format for the end of each session. The coach will debrief the players and the parents will line up next to a marker/cone on the right-hand side of the diagram. When a parent has signed out, the coach will call the player, who is then able to be dismissed from the camp.

Only one player will be dismissed at a time to further enforce our social distancing measures on camp.

RESTROOM BREAKS

An overview of how our coaches will organize restroom breaks with the children

Our camp programs are split into the following age divisions:

- *Fun in the Sun (4-6 years)*
- *Skills and Thrills (7-10 years)*
- *Compete With Your Feet (11-16 years).*

The 4-6 year olds will all be taken to the restroom at one time. We will create two lines of players, all 6 feet apart and then carefully take them to the restrooms together.

One child goes into the bathroom facility at one time and coach emphasizes the importance of washing hands thoroughly.

The older two age groups will adopt a similar approach for all the players that need to go to the restroom. For the players that don't, they are able to practice some individual skills in the activity zone. If this happens, the coach of that group will ask the coach on the next pitch to visually check that the remaining players are abiding by safe distancing measures.

SAFER SOCCER CAMPS

Part 1.

On Field Protocol

- Players & parents with any of the following signs or symptoms should not attend camp: fever, cough, shortness of breath/difficulty breathing, chills, body or muscle aches, diarrhea, sore throat, new headache, or a loss of taste or smell.
- Coaches will greet all players at sign in and enquire about their recent health. They will ask how the children are feeling and send them home if they act or discuss feeling ill.
- No handshakes, high-fives or fist/elbow bumps will be permitted on camp.
- Coaches will wear cloth masks during all sessions, until deemed safe not to by City/County/State guidelines.
- Players will have their temperature checked on arrival. If a player has a temperature of 100.4 degrees or higher, they will not be able to participate in the session.
- Sign In and Out will be segregated by group. We do not want multiple groups mixing with each other. **IMPORTANT:** Do not arrive more than 10 minutes early for your session, and be prepared to leave the fields immediately once complete.
- Players cannot remain at the fields following their camp session.
- Players cannot join other groups during the camp day.
- Players need to store their backpacks, water bottles and any other gear on their specified cone, which will be at a distance of 6 feet from each other.
- Players should bring hand sanitizer with them to camp and use before, during & after the session.
- Coaches will not have hand sanitizer available for children to use.
- No sharing of equipment — players should not touch any cones or other equipment before, during or after the camp.

SAFER SOCCER CAMPS

Part 2.

Parent Recommendations

- Ensure children are healthy, check their temperature daily (it must be less than 100.4F).
- Limited or no carpooling.
- Stay in car or social distance if remaining at camp during the session.
- Ensure child's clothing is washed after every session.
- Label your child's equipment to guard against cross-contamination.
- Ensure all equipment, cleats, ball, shin guards etc. are sanitized after every session.
- Notify your coach immediately if your child becomes ill for any reason and do not bring them into contact with coaches or other players.
- Do not assist coaches with equipment before or after sessions.
- Be sure your child has necessary sanitizer and cleaning supplies with them at every camp session.

Player Recommendations

- Take your temperature daily.
- Wash hands thoroughly before and after camp and when using bathrooms.
- Bring and use hand sanitizer with you at every camp session. Especially for use at the beginning and end of sessions.
- Do not touch or share anyone else's equipment.
- Bring your own ball to camp, label it as your own.
- Practice social distancing and place bags and other equipment at least 6 feet apart from others on your specified cone.
- Wash and sanitize all equipment before and after every camp session.
- Most importantly, be smart and please stay home if you are sick.

EMERGENCY COVID-19 RELATED PROTOCOLS

Plan for When a Staff Member, Child or Visitor Becomes Sick

Covid-19 Situation

- ⚽ An isolated area will be identified to separate anyone who exhibits symptoms of COVID-19. This area will be marked out by cones, far away from other participants on camp. The isolation area will be in close proximity of the entrance and/or parking lot, to ensure a safe exit from camp for anyone who shows COVID-19 symptoms.
- ⚽ Any individual exhibiting symptoms will immediately be required to wear a face covering and will need to wait in the isolation area until they can be transported home or to a healthcare facility.
- ⚽ If the individual is a child, his/her parent(s) will be contacted immediately after this individual has been placed in the isolation area.
- ⚽ UK International Soccer staff will be aware of the following COVID-19 symptoms:
 - *Fever*
 - *Cough*
 - *Shortness of breath or difficulty breathing*
 - *Chills*
 - *Repeated shaking or muscle pain*
 - *Headache*
 - *Sore throat*
 - *New loss of taste or smell*
- ⚽ For serious injury or illness, the coach will call 9-1-1 without delay. We ask all individuals to seek medical attention if COVID-19 symptoms become severe.
- ⚽ The UK International Soccer COVID-19 liaison and the Head Office will be notified of any COVID-19 related incidents as soon as possible.
- ⚽ UK International Soccer will notify local health officials, staff, and all participating families of any positive case of COVID-19 while maintaining confidentiality as required by state and federal laws. It is important that the coaches also maintain confidentiality of any individuals who do become sick at camp.
- ⚽ Participants should not be allowed to touch items such as soccer balls, cones and other players' equipment on camp. If a sick participant has contacted one of these items then they must be sanitized after waiting as long as possible.
- ⚽ UK International Soccer will advise sick staff members and campers not to return until they have met CDC criteria to discontinue home isolation and a physician has provided written clearance.
- ⚽ Coaches will collect the following information from the affected individual(s):
 - *Date & time • Program name & location*
 - *Persons name (first & last), phone number and email address*
 - *Camp Director name • Coach name • Regional Director name*
 - *Describe what happened, who they have been in contact with & action taken*

EMERGENCY COVID-19 RELATED PROTOCOLS

Consideration For Partial Or Total Closures

- ⚽ Regional Directors and Camp Directors will check state, local orders and health department notices daily about transmissions in the area or closures, to be able to adjust operations accordingly.
- ⚽ When a camper or staff member tests positive for COVID-19 and exposed others at camp, UK International Soccer will implement the following steps:
 - ⚽ UK International Soccer will consult with the local public health department. The Regional Director will consider if closure of the camp is warranted, based on the guidance presented by the local public health officer. Individuals who come in close contact with this player or staff member will need to isolate for at least 14 days since the time of potential exposure. This information will be sent to staff and families by Regional Director.
 - ⚽ At a UK International Soccer camp, the entire group will be informed if an individual tests positive, maintaining confidentiality.
 - ⚽ The entire camp may be cancelled, depending on proximity between groups and advice from the local public health department
